

REMOTE AREA DIVE PRESENTS UEPI - SOLOMON ISLANDS

8

DAYS

7

NIGHTS

11

DIVES

Join the crew from Remote Area Dive on this amazing trip to dive Uepi Island, the Solomon Islands most popular dive destination! The island offers incredible, first-class dive sites only minutes away from your room. There are diverse concentrations of marine life surrounding the island with sites ranging from lagoon coral gardens to vertical drop-offs. The water is warm all year round with visibility rarely dropping below 20 metres. The currents and deep water passages make an incredible habitat for pelagics and filter feeders such as corals and sponges. Sharks frequent this area, helping it earn the reputation for the best diving the Solomon Islands has to offer.
